Bangkok, Thailand

## Education

### Assumption University of Thailand

- BSCS in Computer Science
- 2023 - Present **(Soon to be graduated)**

### Certificates

- HTML, CSS, and Javascript for Web Developers
- Foundations of UX Design
- Technical Support Fundamentals
- Foundations of Digital Marketing and E-commerce

## Languages

- English (fluent)
- Chinese (basic)
- Myanmar (native)

## Skills

- JavaScript, React
- Responsive UI development
- Next.js, Node.js, Express.js
- REST API
- PostgreSQL, MongoDB
- Data analysis with Python
- Machine learning / model evaluation
- Natural Language Processing
- Git & GitHub
- VS Code
- Figma
- Canva
- Problem Solving
- Project documentation and team collaboration

## Projects

### Active Heaven

**2024 (Database Full Stack Website)**

- Developed responsive, accessible UI with HTML, CSS, and JavaScript.
- Implemented client-side logic and data handling; integrated with back-end APIs.
- Managed the codebase on GitHub and iterated on performance and UX improvements.

### InfoNest

**2025 (Full-Stack Chatbot Website)**

- Built a responsive React chat UI with real-time messaging, conversation history, and secure auth (JWT & Google OAuth).
- Implemented Node.js/Express back end integrating Rasa NLU and Gemini API, persisted data in MongoDB, containerized with Docker, and deployed on Render.

### NLP Model

**2026 (Sentiment Analysis for English and Thai)**

- Built an end-to-end sentiment-analysis pipeline for reviews using Python: text cleaning (tokenization, lemmatization, stop-word removal), TF-IDF features, and trained classifiers (Logistic Regression, SVM, Random Forest) with scikit-learn.
- Evaluated models with accuracy/precision/recall/F1, performed error analysis and tuning, and documented a reproducible workflow in the project notebook.
